

All The Sex You Want with the Most Popular Pheromones

The most popular **pheromones** on the market today are not guaranteed to get you laid. Sure, there are some excellent products available and there is also a lot of rubbish out there but to think you can simply slap a little cologne on the neck or even on the wrist and become an instant sex magnet will probably get you disappointed more often than not!

Most Popular Pheromones

Unless you have a lab in your home and can test the products you purchase with regard to **synthetic pheromones** then it's similar to Russian roulette choosing the best **pheromone product** on the market. Many people will just simply go from product to product hoping they find the answer to solving their lack of sex. Realistically, a **pheromone product** isn't going to get you laid just by spraying a little on your wrists or perhaps on your neckline.

Did You Know?

The most commonly used pheromone is called **Androstenone**. This **male pheromone** is said to be able to have an effect of attraction and creating a somewhat irresistible aura in the wearer. If you are already a dominant character then it may be wise to restrict how much of this pheromone you use.

Pheromone Product Reviews

Lot of researchers have been conducted over the last twenty years about the existence and benefits of **human pheromones**. Still, the debate continues about whether they really exist and if they do, can they be adapted into product form for people to use as a **secret weapon** in their endeavors to attract sexual partners.

- Many products are available on the market today and sifting through these is like wading through a pool of hype and amazing claims.
- For someone making their first foray into the world of pheromone products the choice is vast but the doubt still pervades the mind.
- What is the most popular **pheromones product** available?

“

Buy Pheromones - The truth about Buying Pheromones Before you go out and buy pheromones are you sure what you re buying? It s easy to get caught up in the hype when you re in a buying mood and get excited about the first claim you find that states you get more loving than you can handle.Let s...

Here's a Tip

Look for companies promoting products which have a little substance behind their claims. What do I mean by this? Well, put simply, look for products which have clearly undergone extensive research in reputable areas and by people who know their stuff. Two products which usually come immediately to mind are **Athena Pheromones** and **Pherlure cologne**.

Dr, Winifred cutler is the scientist behind the particular establishment of **Athena Pheromones** and she's almost a legend in the area of pheromone studies, having produced a lot of ground-breaking research. **Pherlure Cologne** has also undergone extensive testing in fact, underwent tests by the University of Chicago and was found to be very useful in getting people noticed.

Best Pheromones

The **best pheromone** product on the market isn't going to transform you into the world's most desirable sex object. Think of it as an aid in getting noticed. More to the point, a tool you use to start conversations. Once you are in a conversation then the hard work begins. It's going to depend a lot on you from this moment on. If pheromones got you noticed they've done their job. No amount of cologne or perfume is going to get you jumped.
