

Max Attraction: The Max Attraction Pheromone Cologne Examined

Being well aware that many folks continue to be blindly stumbling throughout the net in search of real information regarding attractant pheromones, after listening to the name **Max Attraction** for years, but finding no reliable information on this **pheromone** spray, I opted to give it a go!

However, in my experience this is often an excellent thing! As there is that most companies with a truly quality product don't need to excessively marketplace their products, their quality is known via expression of mouth! LuvEssentials immediately fell into this category as I found out during my

*“ During my initial research I discovered that Max Attraction Gold, is pretty much the flagship **pheromone cologne** produced by a company known as LuvEssentials. I'm embarrassed to say I knew very little about these folks at the time I ordered their **pheromone spray** and ready to put it through its paces.*

cursory research.

So what is Utmost Attraction? I might afterwards find out that this **pheromone cologne** is pretty much a hybrid perfume, composed of Androstenone, Androsterone, as well as Androstenol! Once you learn anything regarding pheromones, this is a rather aggressive as well as powerful combination to become contained in any kind of solitary pheromone cologne!

What Will be **Androstenone**?

Androstenone is a human pheromone which the pheromone community refers to as basically being a sexually based pheromone compound. Androstenone signals to people exposed, among other things, dominance, aggression, competition, and is highly known to be associated with, and to stimulate feeling of strong **sexual attraction**."

What is Actually **Androsterone**?

Androsterone is really a human pheromone that seems to have the effect of creating an aura of masculinity about the wearer, and signalling an impression of defense, security, and trustworthiness. In other words, a woman exposed to a male wearing Androsterone would most likely view him as an Alpha Men protector kind, a man who would typically take care of her."

And Finally, What's Androstenol?

Androstenol is referred to as a social pheromone compound. The results of being exposed to Androstenol signal the actual following; a sense of youth and vitality, friendliness, comfort, relaxation, and chattiness. In essence, in this case, a lady being exposed to Androstenol would be more likely to become friendly and relaxed, and would feel more at ease to engage in prolonged conversation during the period of exposure, i.e., a social pheromone...Very very therapeutic for "breaking the ice," and freely getting conversations going, especially with strangers."

Now it ought to be said, I was now a bit optimistic after learning that pheromone compounds composed this combination in Max Attraction. As I was conscious that both Androstenone as well as Androsterone each happen to be used to very good result in one of my favorite fragrances known as Alpha 7 Scented, so I had been well aware of their effectiveness!

- However, the introduction of Androstenol was something fresh for me!
- At least as utilized within a similar mixture as Androstenone and Androsterone!
- So now I was chomping on the bit to give this stuff a try in the "real planet," to see what, if anything that it might actually do!

After receiving my new container of Max Attraction Gold pheromone spray, I opted to put it to use very quickly, wearing it the next morning before leaving my house to be able to head off to work. On my way to work I made my ritualistic take a look at my local Dunkin Donut shop to pick up my standard large cup of coffee. Needless to say I would soon [notice] that this day's standard cease would be somewhat, different!

Nearing the cashier station and quickly greeted two extremely attractive young Asian girls manning the counter, both at least 15+ years my juniors, each whom I saw nearly daily without much incident. Except these days was to be different.

As I was looking up reading the menu for the wall, out of the corner of my eye I noticed both of these attractive young ladies quickly looking back and forth at each other, while donning big grins on their faces and smiling at one another. The cuter of the two then rapidly and frequently surfed the woman's hand around her forehead, as if chilling herself?

Max Attraction Androstenone Androsterone Pheromone Spray Pheromone

My awareness peaked, I look lower from the menu on the wall and see myself staring at both girls standing presently there together with big smiles, their eye balls wide open and staring at me! They both had which "Dear Caught Within Headlights" look as they stared with me smiling and unblinking! I thought to be able to myself, this is cool, I've never gotten this reaction through either one of these before!

Then placed my purchase as well as handed over my personal debit card, and had been taken aback somewhat by the rather extra polite and borderline flirtatious actions I became getting from each of these kinds of younger ladies, as I said 15+ years my juniors! I of course smile back with each of them, and they seemed to behave as if they were girls in school caught staring at a hot older teacher that they had a crush on or something, it was a little weird to be honest!

Nevertheless, I paid and left as I was going to be past due regarding work! Now allow me to just say this, what transpired at my place of work this morning, and also to my repeat trip to Dunkin Donuts the following day, simply left me no doubt that Max Attraction was some potent stuff!

I've tested a lot of pheromone colognes over the years now, some been employed by well, although some have done virtually nothing, other than drain my pocket book of funds! However, after wearing Max Attraction with regard to six complete days, I was more than happy that this thing was the real deal! And also very to be truthful, in the hands of an experienced pheromone enthusiast, this kind of stuff is da.
