## Firstly, a Bit about Me Personally

From the age of 18 I have not too long ago been using Pheromone products, I've now just turned 40 and I have come to see these because my little remedy. I will be just an average looking guy yet I have dated some of the best looking women in the modern world and people have wondered, how does he or she practice it? Functions it offers is actually pheromone products such as Max Destination Gold or Pherazone mixed with subtle musk. Back in 1988 to look at first began using these items the pheromone used may be pure androstenone, that is very powerful and not very subtle, nevertheless more recently new types of pheromones have been identified called social pheromones. These new pheromones blend social signals with sexual signals and also the result could be devastating!

Several years ago while i was carrying out a video review for Pherazone I hit the town with plenty still upon and that night I had a lot of women hanging off me all night long, it was pretty much ridiculous. Now is this simply my magnetic charm and boyish good looks, properly put it this way, without pheromones nothing much happened, I say much as stuff did still take place but it was totally different from when I'd pheromones on. Now has been this just psychological? Was I just more confident? The placebo effect? It's possible, but it can not explain everything. Only those who have tried the latest social pheromones will understand what I am saying here.
